COMPANY PROFILE · 2026

Digital Solutions. Real Results.

OCTTOAPPS TECHNOLOGIES W.L.L. · DOHA, QATAR

Building the future of business software.

Enterprise platforms. AI systems. Mobile applications. Built
for ambitious companies in Qatar and the GCC — in Arabic
and English, from day one.

One team. Every layer.

OcttoApps is a Qatar-registered technology company in Doha. We design, build and operate the platforms, apps and dashboards modern companies run on — from first sketch to long after launch.

01

We build it.

Strategy, design and engineering under one roof. Real products made to last — never templates.

50+

Solutions & features delivered

02

We run it.

We monitor, support and improve the systems your team relies on. Secure hosting, real support.

10+

Industries served

03

We scale it.

Architecture built for growth — from a single app to infrastructure across Qatar and the GCC.

9+

Years of combined experience

24/7

Support & operations

Dashboards that run the business.

Owners and managers see revenue, operations and KPIs the moment they happen – not at month-end.

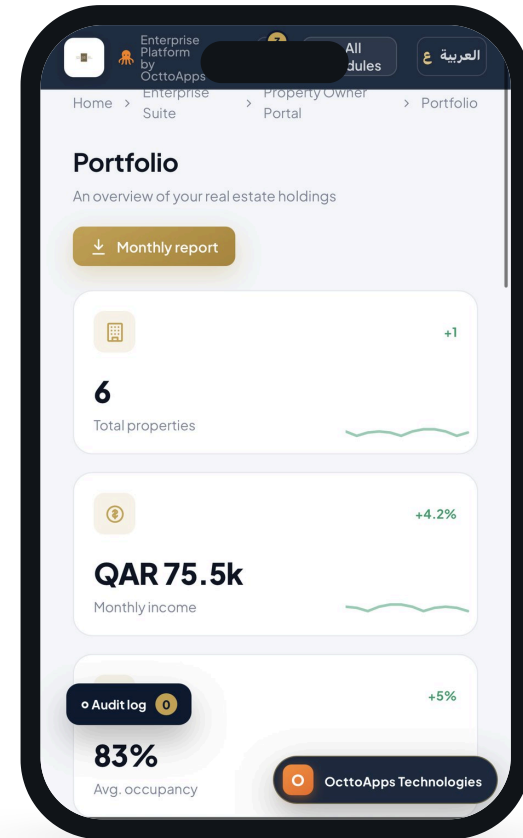

Live KPIs

Role-based access

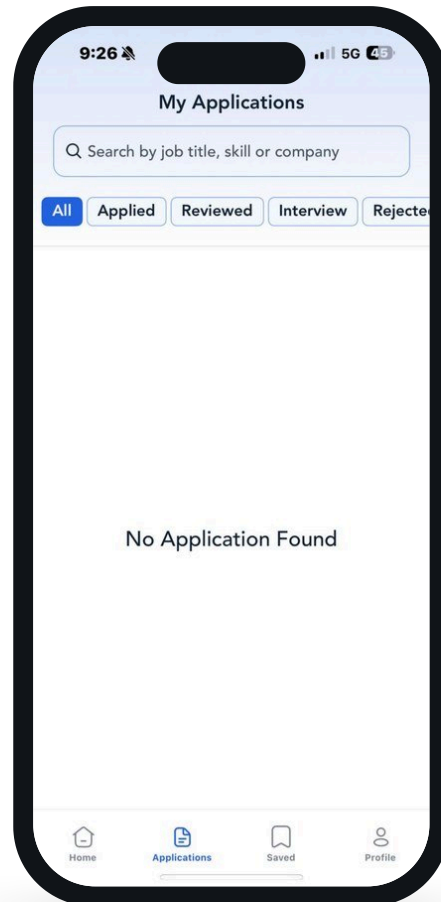

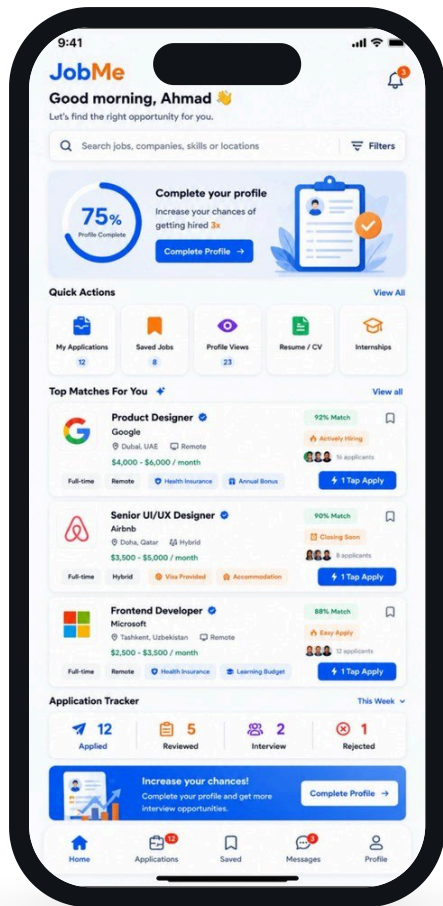

Realtime data

Arabic & English

03 · MOBILE APPLICATIONS

Apps people actually use.

Native iOS & Android apps wired straight into your systems — booking, delivery, field teams and customer self-service.

iOS & Android

Offline-ready

Push & realtime

Bilingual UI

SHOWN: **JOBME** — LIVE ON THE APP STORE & GOOGLE PLAY

Software that works on its own.

Assistants, CV screening, document processing and WhatsApp automation — built into your systems, so routine work just happens.

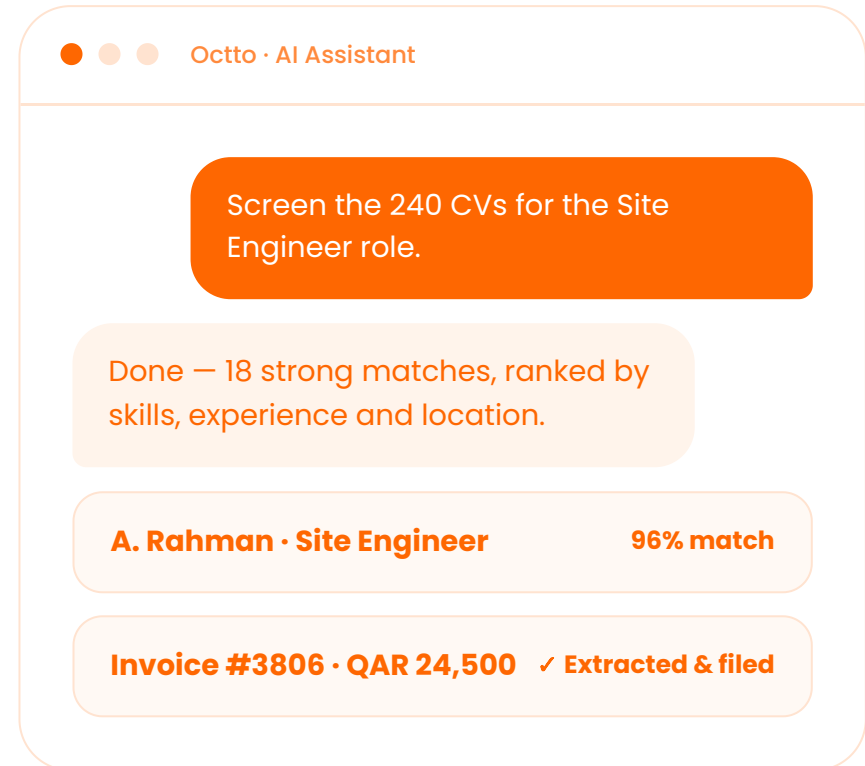

24/7 assistants

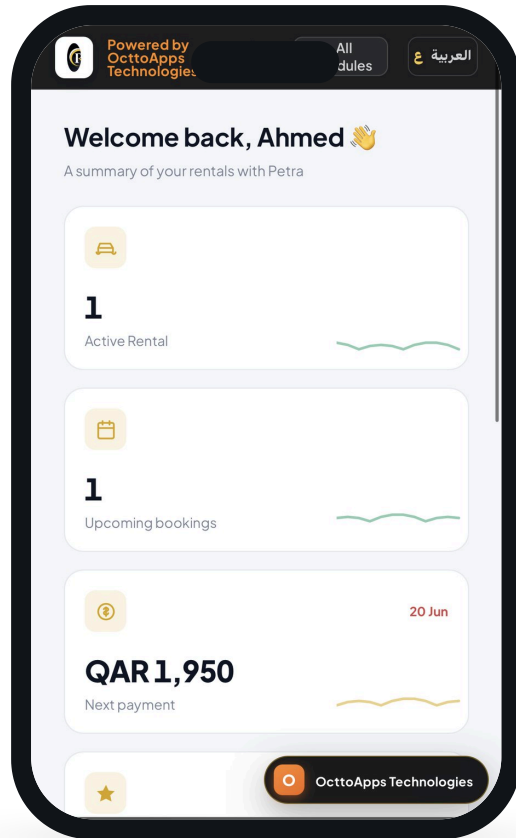

Document AI

WhatsApp automation

-70% manual work

BUILT WITH **OPENAI · NODE.JS · WHATSAPP API**

SELECTED WORK

Work that ships.

Real systems we've built and operate – and the concepts
that show where we can take yours.

● OUR PRODUCT · LIVE ON IOS & ANDROID

JobMe

PROBLEM Hiring in Qatar is fragmented – the right people and the right jobs rarely find each other quickly.

SOLUTION A bilingual hiring platform with smart matching, applicant tracking and employer dashboards.

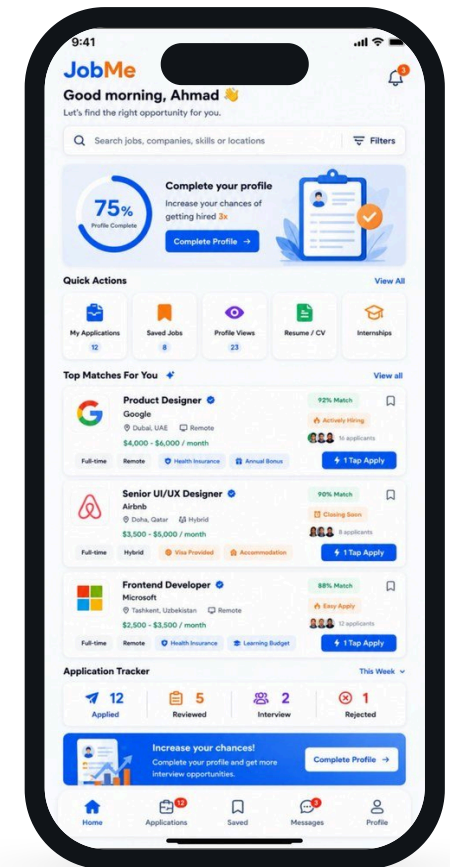

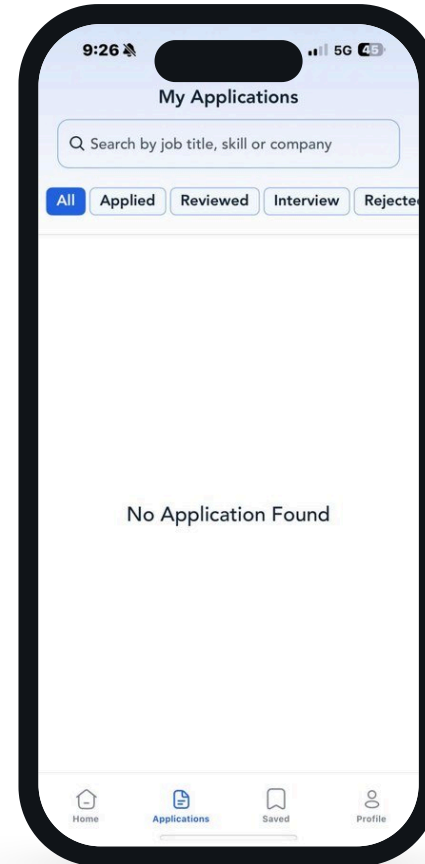

OUTCOME Live on the App Store and Google Play – our own product, built and operated end to end.

Flutter

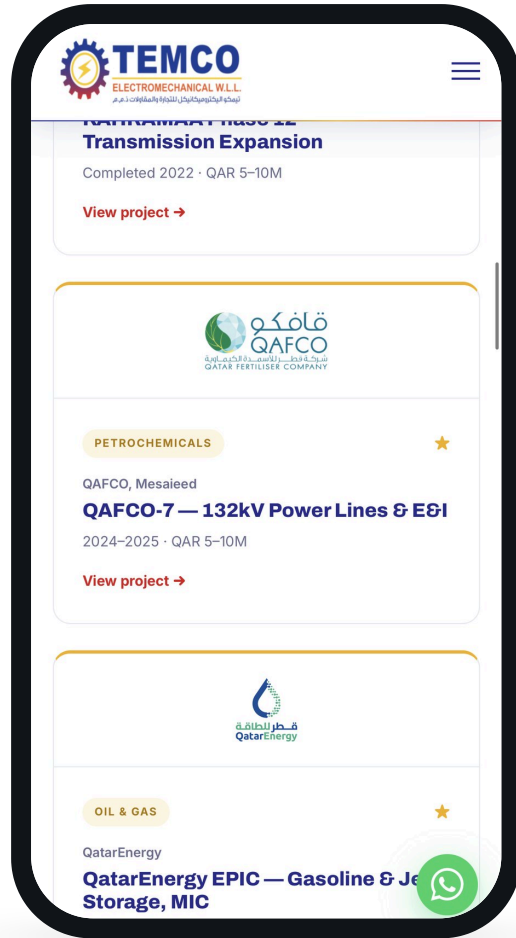

Node.js

Smart matching

Arabic & English

ACTUAL APP SCREENS

ACTUAL SCREENS · TEMCO-OCTTOAPPS.NETLIFY.APP

● CLIENT SYSTEM · CONSTRUCTION

TEMCO Electromechanical

PROBLEM Projects tracked on paper and spreadsheets — no live view of progress, safety or quality across sites.

SOLUTION A corporate platform with a live project showcase — QAFCO, QatarEnergy and KAHRAMAA works — plus project systems, bilingual, web and mobile.

OUTCOME One connected system replacing scattered tools, with every site reporting in real time.

Project tracking

Safety logs

QA/QC

Workforce

Aligator

PROBLEM Media coverage and public sentiment scattered across platforms – impossible to track in real time.

SOLUTION An AI media-intelligence dashboard: monitoring, sentiment analysis, reputation scoring and reporting in one live feed.

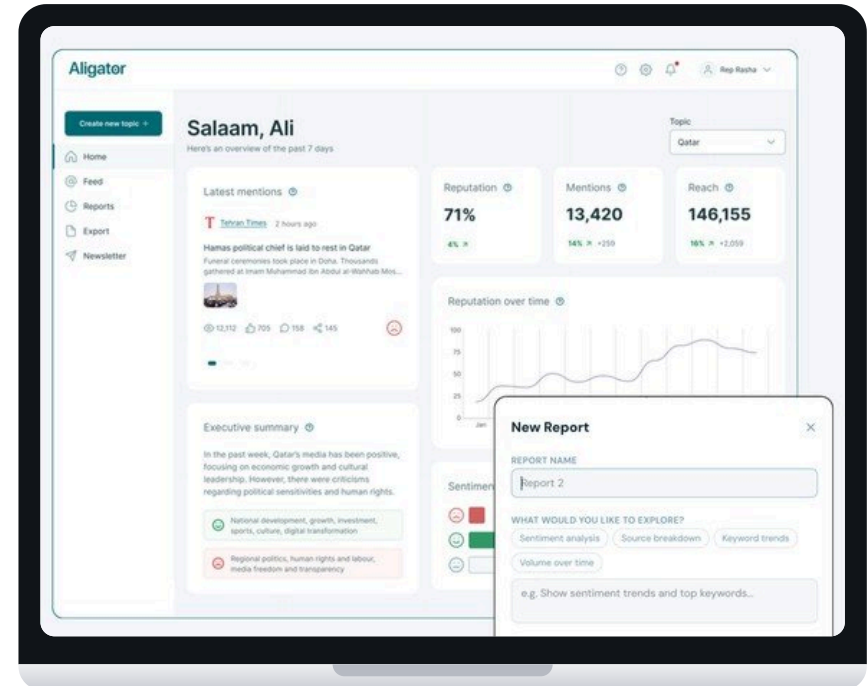

OUTCOME Executives see reputation, mentions and reach the moment they move.

Media monitoring

AI sentiment

Reporting

Real-time feed

ACTUAL PRODUCT SCREEN

● CLIENT SYSTEM · AUTOMOTIVE

Diar Al-Azz Cars

PROBLEM A growing Doha dealership with no digital showroom – inventory, enquiries and payments handled manually.

SOLUTION A bilingual digital showroom: SUV, luxury, family and commercial collections, enquiry flows and payments – Arabic and English.

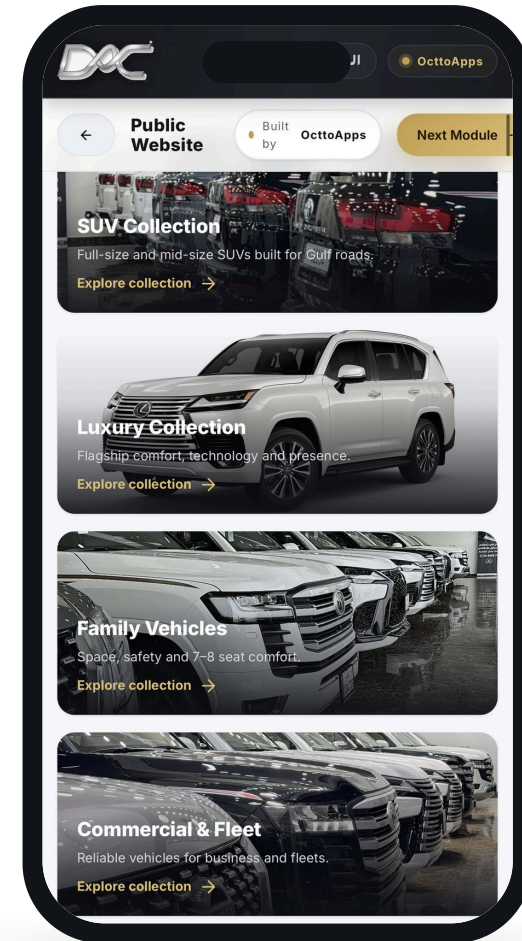

OUTCOME Live platform operated by OcttoApps, with mobile optimisation and payment flow delivered.

Digital showroom

Arabic & English

Payments

Mobile-first

Al Mashata Beauty Center & Spa

Bookings, memberships & app experience · mashata-octoapps.netlify.app

ACTUAL SCREENS · AL MASHATA CONCEPT

Built on what the best build on.

Every layer in-house — from the app in someone's hand to the cloud it runs on.

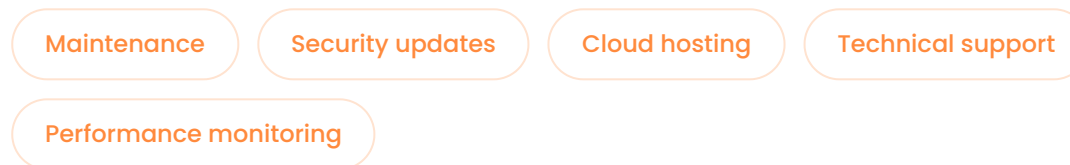

React	Flutter	Node.js	TypeScript
PostgreSQL	AWS	Google Cloud	Firebase
Supabase	Stripe	OpenAI	WhatsApp API

From idea to live system.

One team, one clear process. Launch isn't the end — it's where the partnership starts.

AFTER LAUNCH, WE STAY ON

A product company, not a vendor.

Mission

Make software simple.

Working systems in weeks, not years — built, launched and operated with you.

Vision

Power the region.

The platforms ambitious companies across Qatar and the GCC run on.

Philosophy

Stay on.

Long-term partnerships. We keep improving what we build — because we run it too.

2026

LAUNCH & BUILD

Company launched in Doha. First products live — hiring platform and client systems across construction, AI and logistics.

2027

SCALE

Grow the engineering team. Ready-to-deploy industry platforms and recurring operations contracts.

2028

REGION

Expand across the GCC. AI product suite for business automation, partnerships and platform licensing.

LET'S BUILD WHAT'S NEXT

Let's build something extraordinary.

A platform, an app, a dashboard or an AI-powered system
— we design it, build it and stay on to run it.
